## Education for craniosacral biodynamics and singing bowl massage

The energetic assistance deals exclusively with the activation and Harmonization of the body's own energy fields (life energy). I was informed about it and take note that I receive no other treatment than energetic one, namely

Craniosacral biodynamics or singing bowl massage.

As these measures restore and harmonize the bodys energy fields, they are not a healing treatment. The mode of action and the success of Energetic treatment is not scientifically proven or refuted with certain methods.

Accordingly, the energetic assistance is not a substitute for medical diagnosis and / or treatment, nor is it a substitute for psychological or psychotherapeutic advice, treatment or examination. All statements and advice are not diagnoses, but represent pure energetic status descriptions.

I have been informed that in need of diagnosis and therapy, a medical Doctor must be contacted.

I have read the above content carefully before signing, fully understood and approved it.
